

COE Lecture Note Series

Volume No. : 42

Title : Study Group Workshop 2012 Abstract, Lecture & Report

Editors : 佐伯修, 若山正人, 山本昌宏

Written In : Japanese

ISSN : 1881-4042

Published In : 2012年11月19日

Contents:

July25-27 & 30-31, 2012

NTT Secure Platform Laboratories

Trap-door discrete logarithm problems, or all-but-many encryptions: How to construct them? **1**

Abstract 1

Lecture 5

Report 17

FUJITSU LABORATORIES LTD.

A study of integer factorization problems **27**

Abstract 27

Lecture 30

Report 40

Kao Corporation

Mathematical structure for purchase of commodities **49**

Abstract 49

Lecture 50

Report 54

OLM Digital, Inc.

Geometrical and statistical issues in computer facial animation **61**

Abstract 61

Lecture 62

Report 84

Nippon Steel Corporation

Brainstorming for getting an abstract framework for thinking to tackle social and industrial problems through a combination of geometry and algebra with analysis	93
Abstract	93
Lecture	97
Report	115

Railway Technical Research Institute

Reconstructing space curves from chord measurement	123
Abstract	123
Lecture	126
Report	143

RIKEN / The University of Tokyo

Dicke superradiance and spin-boson model in circuit QED	149
Abstract	149
Lecture	151
Report	171
