COE Lecture Note Series

Volume No. : 15
Title : International Workshop on Verified Computations and Related Topics
Editor : Faculty of Mathematics Kyushu University
Written In : English
ISSN : 1881-4042
Published In : 2009 年 2 月 23 日
Authors : Götz Alefeld, Gianni Arioli, Henning Behnke, B. Malcolm Brown Andreas Frommer, Yasuhide Fukumoto, Gerhard Heindl, Frank Herrlich, Vu Hoang, Masanobu Kaneko, Ulrich Kulisch, Walter Krämer, Günter Mayer, P. Joseph McKenna, Kaori Nagatou, Mitsuhiro T. Nakao, Markus Neher, Arnold Neumaier, Shin'ichi Oishi, Filomena Pacella, Michael Plum, Andreas Rauh, Wolfgang Reichel, Siegfried M. Rump, Gabriela Schmithüsen, Setsuo Taniguchi, Masato Wakayama, Yoshitaka Watanabe, Nobito Yamamoto, Piotr Zgliczyński

Contents :

Götz Alefeld (University of Karlsruhe)
Error Bounds for Complementarity Problems Using Feasible Vectors
……11
Gianni Arioli (Politecnico di Milano)
A functional analytic approach to computer assisted proofs
……14
Henning Behnke (Technical University of Clausthal)
Band-gaps for 3D Photonic Crystals:
A Computer-Assisted Approach (Part II)
……20
B. Malcolm Brown (Cardiff University) .
Eigenvalue enclosures and exclosures for non-self-adjoint problems
in hydrodynamics
……23
Andreas Frommer (University of Wuppertal)
Computing enclosures for the matrix square root
……25
Yasuhide Fukumoto (Kyushu University)
Linear and weakly nonlinear stability of an elliptic flow

from the viewpoint of Hamiltonian spectra
.....31
Gerhard Heindl (University of Wuppertal)
On Verification Problems in Digital Filter Design
.....38
Frank Herrlich (University of Karlsruhe)
Origamis and Dessins d'Enfants
.....41
Vu Hoang (University of Karlsruhe)
Enclosures for Single-Shock Solutions of Burgers' Equation
.....45
Masanobu Kaneko (Kyushu University)
On the "values" of the elliptic modular j-function at real quadratics
.....47
Ulrich Kulisch (University of Karlsruhe)
Practical Interval Arithmetic
.....49
Walter Krämer (University of Wuppertal)
Solving Large Linear Interval System
.....50
Günter Mayer (University of Rostock)
The solution sets of some structured matrices
.....59
P. Joseph McKenna (University of Connecticut) . . . . . .
Some conjectures on semilinear elliptic equations:
theorems, computations and verification
.....61
Kaori Nagatou (Kyushu University)
Spectral Problem on 3-D Maxwell's Equations
.....64
Mitsuhiro T. Nakao (Kyushu University)
On the numerical verification method of solutions for
evolutional equations
.....72
Markus Neher (University of Karlsruhe)
Taylor model methods for the verified integration of ODEs

……76
Arnold Neumaier (University of Vienna)
Towards optimization-based error bounds for PDEs
……78
Shin'ichi Oishi (Waseda University)
Some Applications of Verified Numerical Computations
and Error Free Transformations
……80
Filomena Pacella (University of Rome La Sapienza)
Computer assisted proofs for semilinear elliptic equations
……82
Michael Plum (University of Karlsruhe)
Band-gaps for 3D Photonic Crystals:
A Computer-Assisted Approach (Part I)
……85
Andreas Rauh (University of Rostock)
Applications of Verified DAE Solvers in Engineering
……88
Wolfgang Reichel (University of Karlsruhe)
A-priori bounds for discretized nonlinear elliptic boundary
value problems
……97
Siegfried M. Rump (Technical University of Hamburg-Harburg)
Error-Free Transformations and ill-conditioned problems
……100
Gabriela Schmithüsen (University of Karlsruhe)
A side trip of origamis into Outer Space
……107
Setsuo Taniguchi (Kyushu University)
Eigenvalues in stochastic oscillatory integrals
……111
Masato Wakayama (Kyushu University)
Arithmetics on non-commutative harmonic oscillators
……115
Yoshitaka Watanabe (Kyushu University)
A computer-assisted stability proof for the Orr-Sommerfeld problem

with Poiseuille flow
.....122
Nobito Yamamoto (University of Electro-Communications)
Verified Computatuion of Closed Orbits of Dynamical Systems
.....124
Piotr Zgliczyński (Jagiellonian University)
Rigorous numerics for dissipative PDEs
.....127
